The Jiva Story

“Jiva” is a Sanskrit word meaning Life. Our vision for JivaGreen began with our desire to find alternatives to disposables made from processed paper. As we looked for available options we sadly could not find anything that was readily available and less processed. Then we discovered that there were natural alternatives made with minimal processing from renewable sources that weren't being utilized. Our consciousness led us to bring these naturally sourced products to market.

We are excited about the impact that is possible when we all work together and individually take small steps towards being a sustainable society. We invite you to join us on our journey through nature to our inner self, from our connection with wilderness to our interaction with our communities. Our belief in the in words “Be the change you want to see” – Mahatma Gandhi, fuels our passion for keeping our Earth Clean and Green. We care for all the living beings who call this planet their Home.

Our inspiration is to create a brand that deals in eco-friendly and biodegradable products. Let's join hands in our fight for a sustainable future, to save our Planet for ourselves and future generations. Let's be One!
